

Add flexibility to your lighting system with this HF wireless remote control unit.

This universal wireless remote control kit pilots RVE modular products\*

Parts of the kit are:

- A one key "HF1" or four keys "HF4" matchbox remote control (RC).
- A clip holder that can be installed on a wall to store the remote or use it like a standard wall switch.
- A modular main receiver (MR) managing the instruction transmitted to control the system installed.  
One or more modular auxiliary receivers (AR) to manage more channels/products  
All receivers are fitting within regular electrical cabinets.
- An external antenna (A) to increase useful range (over 60 m call us).

\*Except PE 500, PE1000

### 1 Control circuit

kit : HF1

### 2 Control circuits

kit : HF2

### 3 Control circuits

kit : HF3

### 4 Control circuits

kit : HF4

## TECHNICAL SPECIFICATIONS

Transfer protocol EMX 433.

The remote control transmits a coded signal to a main receiver that pilots a connected device or an auxiliary receiver controlling another device.

Up to 15 auxiliary receivers can be controlled by a main receiver.

The receivers are modular, mounted on DIN rail in standard electrical cabinets and automatically linked to each other through optical connection to ensure electrical insulation.

An antenna connected to the main receiver guarantees the reliability of wireless control.

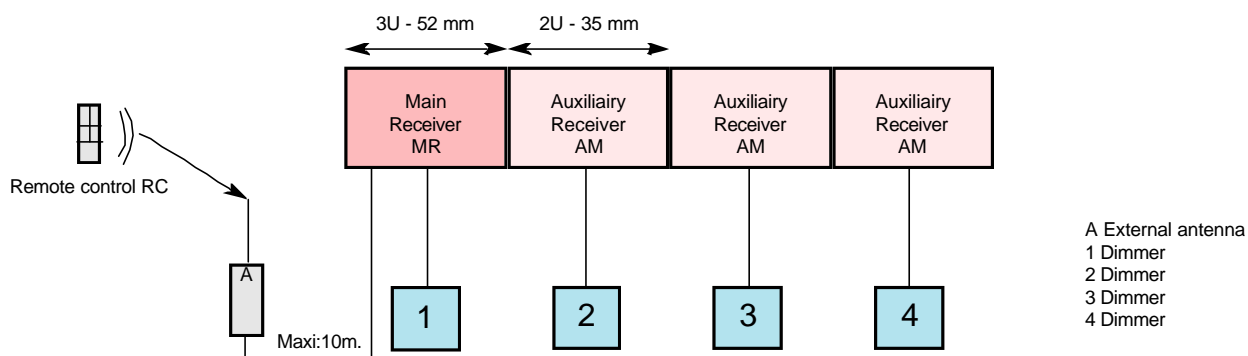

Waterproof, installation outdoor is possible. Useful range is 60 meters, over 60 m, call us.

The kit is packaged with one or several receivers to pilot all RVE products (except PE500, PE1000).

Control	Description of the kit	Kit ref
1 product	1HF1 receiver + 1 HF1 Antenna + 1 HF1 Remote control	HF1
2 products	1HF1 receiver + 1 HF1 auxiliary receiver + 1 HF1 Antenna + 1 HF4 Remote control	HF2
3 products	1HF1 receiver + 2 HF1 auxiliary receivers + 1HF1 Antenna + 1 HF4 Remote control	HF3
4 products	1HF1 receiver + 3 HF1 auxiliary receivers + 1 HF1 Antenna + 1 HF4 Remote control	HF4

Over 16 receivers or for range over 60 m, call us.

## USING EXAMPLE

EC marked in according to European applicable directives
